EXPERIENCE

A PARCEL GUY IN YOUR CAMPUS | Co-Founder
Dec 2022 – April 2024 | Vadodara, Gujarat
- Co-founded a campus-based delivery service catering to the daily needs of a campus community of 30,000+ residents, securing funding of INR 65,000 managed a team of 5+ members, ensuring efficient operations and achieving 95% customer satisfaction.
- Partnered with 30+ local vendors to establish smooth logistics and priority services for 20% faster deliveries.
- Demonstrated leadership, collaboration, and operational planning to streamline on-demand delivery services.

PRISM I.T. SYSTEMS | ReactJS Intern
May 2024 – June 2024 | Surat, Gujarat
- Gained hands-on experience with ReactJS, learning props, state management, components, lifecycle methods, and hooks.
- Implemented responsive, user-centric web interfaces using ReactJS, styled with Bootstrap and CSS and integrated APIs, ensuring exceptional user experience, engagement and interactivity.
- Followed clean coding practices, including version control, creating reusable components, and optimizing time and space complexity.
- Enhanced project stability by 20% and performance by identifying and debugging code issues effectively.

PROJECTS

WEALTHWISE | Finance Management system with AI Chatbot
Sept 2024 – November 2024 | GFG Vultr Cloud Hackathon
- Developed **WealthWise**, a finance administration platform for business owners and contributed as a frontend developer, achieving 100% responsive design using the MERN stack and Tailwind CSS.
- Executed seamless integration of API calls to provide real-time financial data, resulting in enhanced accuracy and user engagement levels rising by 30% on the platform.

EDUENROLL | Student Management System
- Implemented **EduEnroll**, a student management system using ReactJS and Bootstrap, focusing on efficient student data management and enrollment tested with the data of 10,000+ students.
- Achieved a 25% reduction in data retrieval time by optimizing the JSON structure, making it more efficient for real-time data updates and status management (active/inactive).

NEWSMONKEY | Real time News aggregator platform
- Developed **NewsMonkey**, a real-time news aggregator app using ReactJS and Bootstrap, achieving 80% faster load times through the integration of infinite scroll and category filters.
- Integrated a feature to redirect users to the original news source, improving user retention and interaction by 40%.
